

Dear ACBTA 2027 Participants,

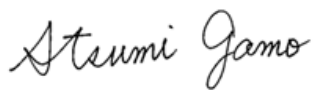

It is with great pride and delight that the Japan National Tourism Organization extends its warmest welcome to all participants on the occasion of this prestigious the 9th congress of the Asian Cognitive Behavioral Therapy Association being held in Japan. We are pleased that the ACBTA 2027 will take place in Tokyo, marking the second time the city has hosted this distinguished gathering since 2013.

Tokyo is both excitingly cosmopolitan, yet also typically Japanese. Over many decades, Japan's capital has hosted countless very important international gatherings. Tokyo has everything it takes to deliver great outcomes for conferences big and small, including a fabulous range of accommodation options and outstanding accessibility. Many cities showcase old and new, but nowhere does it quite like Tokyo, and you will find that whatever you do and wherever you go in Japan, the standard of service is consistently exceptional. Delegates can look forward to exemplary public safety, warmly welcoming hospitality professionals, and a city that simply works.

As president of the Japan National Tourism Organization, I am confident that the ACBTA 2027 will offer unforgettable experiences and successful results.

I look forward to welcoming you all!

Yours very sincerely,

A handwritten signature in black ink that reads "Atsumi Gamo".
