

Theme : Imagine! Decent Work Beyond COVID-19

■ Date : September 19-22, 2023

■ Venue : Hitotsubashi Hall, National Center of Sciences Building, Tokyo, Japan

■ Chair : Akinori Nakata and Akihito Shimazu

Symposia themes to be presented by the invited speakers

- Impact of COVID-19 in the workplace (essential and low-income workers, social inequality, vulnerable groups)
- Burden of disease and costs of psychosocial risks in the workplace (potential and limits of an economic/monetary perspective on psychosocial risks at work)
- Work engagement, flow and mental health in the workplace
- Resources in the workplace for promoting (mental) health: fairness, organisational justice, workplace democracy
- Working times and work-life balance in different country and cultural contexts
- Democracy at work, employee voice and whistleblowing (psychosocial factors for speaking up vs. for individual and organisational silence, regulatory and cultural aspects).
- Psychosocial Safety Climate (PSC) in different country and cultural contexts (regulatory framework, risk awareness and risk perception)
- Tackling psychosocial risks at work: advocacy activities of NGOs
- Digital mental health interventions at workplace: challenges and future directions
- Digitalization of working life
- Active aging in the context of work: the role of psychosocial work quality
- Return to work (cancer and chronic disease) psychosocial aspects, rehabilitation, compensation, prevention
- New Longitudinal Insights into Work Stress and Well-Being Processes
- Decent work as an innovative framework for a psychologically healthy and safe working life. Transformative OSH research and policies in times of multiple crises
