4. Recommended Environment for Viewing Online Conference Site

[Recommended browsers]

The following browsers are recommended for viewing this website.

Viewing from personal computer:

- **Google Chrome, latest version**
- **Microsoft Edge, latest version**
- **Mozilla Firefox, latest version**
- **Safari, latest version**

Viewing from smartphone or tablet:

- **Safari, latest version**
- **Android Chrome, latest version**

5. Support for Internet trouble and when a connection cannot be made to webcast

- We recommend using a stable Internet environment such as a wired LAN connection since the connection may be interrupted if the Internet environment, such as the Wi-Fi signals, is unstable. Please note that the Japan Epidemiological Association cannot provide support in these cases of connection trouble.
