第6回リード・マネジメント研究会

スポンサードセッション(2)

日時:2020/**11/7**(土)14:00~14:55

Early Experience with A Novel Active Fixation Left-Ventricular Pacing Lead: Clinical Benefits and Safety Considerations

座長:松本万夫 先生 東松山医師会病院

演者: Seung-Jung Park, MD Samsung Medical Center

本邦では 2020 年 4 月よりサイドへリックス付きの左心室 4 極リードである「Attain Stability™ Quad: ASQ」が使用可能となった。国内においても既に多くの経験が積まれているが、植込み後の中一長期のフォローアップにおける有効性や安全性に関しては更なる経験の蓄積が望まれる。一方、隣国の韓国では、2018 年 7 月より ASQ が臨床使用可能となっており、既に 2 年を超える臨床経験がなされている。本セミナーでは、韓国において CRT を含む CIED 植込み術およびリード抜去術に関してトップクラスの経験を持つ Seung-Jung Park 先生をお招きし、ASQ の実臨床での使用経験を踏まえて、その臨床的価値や植込み時の留意事項、および安全性に関してレビューいただく。

共催:

第6回リード・マネージメント研究会 日本メドトロニック株式会社

Seung-Jung Park, MDSamsung Medical Center

About Seung-Jung Park, MD

Prof. Park, Seung-Jung is an associate professor at the department of cardiology, Heart Stroke and Vascular Institute in Samsung Medical Center, Seoul, Korea. Prof. Park has a key role in several medical societies in South Korea including The Korean Association of Internal Medicine, The Korean Society of Circulation, and The Korean Heart Rhythm Society. He is the highest authority on CIEDs and lead extraction in South Korean with top-ranked experiences. In particular, he had achieved 300 cases of CRT-D for the first time in Korea. He also runs Advanced Practical Training Programs for CIEDs every year for overseas doctors. His programs have trained 50 physicians in more than 10 countries including Japan, Vietnam, Taiwan, China, Singapore, and Malaysia.

About Samsung Medical Center

Founded in 1994, the Samsung Medical Center is one of the biggest hospitals in South Korea. It has 2,000 beds, approximately 2,100,000 outpatients and 100,000 inpatients annually. The Samsung Medical Center manages the department of Cardiology as one of the specialized centers and it operates eight teams (Imaging center, Coronary Artery disease, Heart Failure, Valvular, Arrhythmia, Aortic & Peripheral vascular, Prevention & rehabilitation of cardiac diseases and Women's heart clinic) and these teams are providing rapid and accurate diagnosis and treatment. The Samsung Medical Center has 300+ pacemaker, 100+ ICD, and 70-90+ CRT cases annually.
